LO2 Be able to provide body art design	2.1. Communicate and behave in a professional manner	<ul style="list-style-type: none"> • Explanation of treatment • Benefits • Limitations and co-operation required • Client care • Modesty and support • Communication • Correct posture • Hygiene and a professional approach to the client throughout treatment
	2.2. Position self and the client correctly throughout the treatment	<ul style="list-style-type: none"> • Ensuring the client is comfortable and correctly supported • Body design artist maintaining correct working posture throughout treatment • Body design artist self-care
	2.3. Select and use products, techniques and equipment taking into account identified factors	<ul style="list-style-type: none"> • Equipment <ul style="list-style-type: none"> - Couch or chair - Trolley - Stool - Towels - Blanket - Additional support if appropriate - Headband - Bedroll - Robe - Disposable slippers - Disposable underwear - Magnifying lamp - Tissues - Cotton wool - Cotton buds - Sponges - Disposable gloves - Disposable apron - Disposable mask - Spatulas - Bowls - Mirror - UV cabinet - Autoclave

		<ul style="list-style-type: none"> - Hot bead steriliser - Chemical immersion equipment - Waste disposal - Brushes - Cosmetic Sponges - Illustrators palette - Stencils - Masking tape/surgical tape - Pencil sharpener - Adhesive cup and holder • Products <ul style="list-style-type: none"> - Disinfecting fluid - Sterilising solution - Powder - Fixing spray - Cosmetic pencils - Colour inks - Airbrush paints/inks - Aqua paints - Silicone paints - Grease paints - Fluorescent paints - Metallic paints - Fullers earth - Latex - Body gems - Glitter - Sequins - Transfer tattoos - 2D/3D transfers - Adhesives (clear/coloured) - Adhesive remover - Cleanser - Toner - Moisturiser - Barrier cream - Hand sanitiser - Solvents - Isopropyl alcohol (IPA)
--	--	--

		<ul style="list-style-type: none"> - Wet wipes • Techniques <ul style="list-style-type: none"> - Correction - Colour correction - Blending - Highlighting - Shading - Sculpting - Concealing - Camouflage
	2.4. Apply body art designs	<ul style="list-style-type: none"> • Apply body art designs using products, tools, equipment and techniques to meet the design plan/mood board
	2.5. Follow safe and hygienic working practices	<ul style="list-style-type: none"> • Fire Precautions Act • Health & Safety at Work Act • Health and Safety (First Aid) Regulations • The Management of Health & Safety at Work Regulations • The Workplace (Health, Safety & Welfare) Regulations • The Manual Handling Operations Regulations • The Personal Protective Equipment at Work Regulations • The Provision and Use of Work Equipment Regulations • The Control of Substances Hazardous to Health Regulations (COSHH) • The Electricity at Work Regulations • Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) • Disability Discrimination Act • Data Protection Act/General Data Protection Regulations (GDPR) • Adhere to all product safety precautions and manufacturers' instructions • Legislation which relates to the work being carried out, the environment and the client with whom the nail artist is working • Regulatory authority of country therein - approval of products • 2D/3D transfers • Tattoo inks • Coloured inks
	2.6. Identify contra-actions and take appropriate action during treatment	<ul style="list-style-type: none"> • Adverse skin reaction • Watery eyes

		<ul style="list-style-type: none"> • Excessive erythema • Skin irritation • Itching • Immediate removal of cosmetic products • Application of cool compress • Referral procedures
	2.7. Provide suitable aftercare advice	<ul style="list-style-type: none"> • Recommendations for immediate aftercare • Recommendations for body art design maintenance if required • Recommendations for product removal and skin care advice
	2.8. Complete the treatment to the satisfaction of the client	<ul style="list-style-type: none"> • Conclusion of treatment in appropriate manner to meet client's needs • Manufacturer's instructions and body art design plan • Check treatment results with client • Perform corrections as necessary
	2.9. Evaluate the results of the treatment with the client	<ul style="list-style-type: none"> • Reviewing and recording treatment outcomes • Treatment recommendations • Home care advice including removal products and procedures
	2.10. Describe how to communicate and behave in a professional manner	<ul style="list-style-type: none"> • Design objectives and consultation • Body art design procedure explanation • Client care • Hygiene • Good communication skills
	2.11. State the importance of positioning self and the client correctly throughout the treatment	<ul style="list-style-type: none"> • Ensuring the client is comfortable and correctly supported • Applying the treatments as appropriate to the client's needs • Body art design artist maintaining correct working posture/stance throughout treatment • Body art design artist self-care
	2.12. Describe safe and hygienic working practices	<ul style="list-style-type: none"> • Fire Precautions Act • Health & Safety at Work Act • Health and Safety (First Aid) Regulations • The Management of Health & Safety at Work Regulations • The Workplace (Health, Safety & Welfare) Regulations • The Manual Handling Operations Regulations • The Personal Protective Equipment at Work Regulations • The Provision and Use of Work Equipment Regulations

		<ul style="list-style-type: none"> • The Control of Substances Hazardous to Health Regulations (COSHH) • The Electricity at Work Regulations • Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) • Disability Discrimination Act • Data Protection Act/General Data Protection Regulations (GDPR) • Adhere to all product safety precautions and manufacturers' instructions • Legislation which relates to the work being carried out • The environment and the client with whom the body art design artist is working • Use of products approved by Regulatory authority of country therein • 2D/3D transfers • Tattoo inks • Coloured inks
	<p>2.13. Describe the contra-actions which might occur during and following the treatment and how to respond</p>	<ul style="list-style-type: none"> • Adverse skin reaction • Watery eyes • Excessive erythema • Skin irritation • Itching • Immediate removal of cosmetic products • Application of cool compress • Referral procedures
	<p>2.14. Describe the aftercare advice that should be provided</p>	<ul style="list-style-type: none"> • Recommendations for immediate aftercare • Recommendations for body art design maintenance if required • Recommendations for product removal and skin care advice
	<p>2.15. State the importance of completing the treatment to the satisfaction of the client</p>	<ul style="list-style-type: none"> • Conclusion of treatment in appropriate manner to meet client's needs and manufacturer's instructions
	<p>2.16. State the methods of evaluating the effectiveness of the treatment</p>	<ul style="list-style-type: none"> • Maintaining records for accurate future treatment and continuity purposes • Aftercare • Home care • Product advice • Compliance with current legislation

		<ul style="list-style-type: none"> • Concluding the treatment in the correct manner to meet client's requirements and design plan • Photographic evidence for continuity where required • The treatment should be performed for the required amount of time efficiently and professionally ensuring the working area remains clean and tidy throughout
--	--	---

Assessment	
Portfolio of evidence to contain: <ul style="list-style-type: none"> • Evidence of 2 designs on a minimum of 2 individuals with differing characteristics • Assignment Practical examination	Performance evidence will be internally assessed by the college lecturer and verified by the external examiner (if sampled) to include: <ul style="list-style-type: none"> • Consultation including medical history • Research materials • Design details to include products, character design, area of body worked on • Photographs (showing progressive shots) • Client feedback • After/Home care advice (including details on make-up removal) • Learner and client signature • Design/Treatment date Performance evidence must be evidenced through the use of signed and dated treatment evidence forms. See www.itecworld.co.uk for sample form

Guide to taught content
The content contained within the unit specification is not prescriptive or exhaustive but is intended to provide helpful guidance to teachers and learners with the key areas that will be covered within the unit, and, relating to the kinds of evidence that should be provided for each assessment objective specific to the unit learning outcomes.
