

Scheme of work

For each VTCT (ITEC) qualification, the lecturer/centre must complete a scheme of work for each unit indicating how the lecturer is planning to cover the unit content throughout the course. Set out the planned sessions in terms of learning outcomes to be achieved. These should match those stated within the VTCT (ITEC) unit specification. Include all units of each course offered. Hours should meet the minimum guided learning hours listed within the unit specification.

Unit title: iUBT364 - Provide body electrotherapy treatments

Total contact tuition hours proposed: 104

Lecturer(s) responsible:

Learning outcomes	Lecture content	Suggested resources	Approx. hours
Introductory session	<ul style="list-style-type: none"> College rules and regulations College mission statement iTEC rules and regulations Health & safety Timetable Dates – holidays etc. Syllabus Recommended books Uniform 	<ul style="list-style-type: none"> Lecture Q&A Using all the documents listed to ensure the students understand the college expectations and their commitment to the course 	
1. Be able to prepare for body treatments using electrotherapy			
Prepare themselves, client and work area for body electrotherapy treatments	<ul style="list-style-type: none"> Preparation of working area Equipment Products Work wear Personal appearance and behaviour Hygiene e.g. sterilising/sanitising tools and equipment Client for treatment Client care and modesty 	<ul style="list-style-type: none"> OHP/Whiteboard Lecture Q&A Homework Test An example of a consultation form can be 	40

Use suitable consultation techniques to identify treatment objectives	<ul style="list-style-type: none"> • Suitable area • Positive body language • Positioning of the client • Communication skills • Professionalism • Contra-indications and contra-actions • Treatment plan • Products used • Consent • Confidentiality • Client's signature 	downloaded from: www.itecworld.co.uk	
Carry out body analysis and relevant tests	<ul style="list-style-type: none"> • Height • Weight • Body measurements • Posture check • Muscle tone test • Body fat • Fluid retention • Body Mass Index (BMI) • Tactile test • Thermal test 		
Provide clear recommendations to the client	<ul style="list-style-type: none"> • To include taking into account the following: <ul style="list-style-type: none"> - The outcome of the body analysis - Diet - Smoking - Alcohol - Central heating - Air conditioning - Stress - Sleep - Exercise - Fresh air - Occupation - Lifestyle - Current regime 		
Select products, tools and equipment to suit client treatment needs, body types and conditions	<ul style="list-style-type: none"> • Couch or chair • Trolley • Stool • Towels 		

	<ul style="list-style-type: none"> • Blanket • Additional support if appropriate • Headband • Bedroll • Robe • Disposable slippers • Disinfecting fluid • Tissues • Cotton wool • Sponges • Gloves • Spatulas • Bowls • Mask brushes • Gauze • Sterilising solution • UV cabinet • Autoclave • Chemical immersion equipment • Waste disposal • Electrical equipment as follows: <ul style="list-style-type: none"> - Electro muscle stimulator (EMS) (Faradism) - Galvanism - Microcurrent - Vacuum suction (lymphatic drainage) - High frequency - Infrared - Mechanical massage/vibrator treatments (G5) 		
Describe salon requirements for preparing themselves, the client and work area	<ul style="list-style-type: none"> • Any particular rights, restrictions and acts applicable to body electrotherapy treatment • Code of practice/ethics • Insurance and professional association membership • Record keeping • Professional appearance 		
Describe the environmental conditions suitable for body electrotherapy treatments	<ul style="list-style-type: none"> • Lighting • Heating • Ventilation • Noise levels • Available space 		

	<ul style="list-style-type: none"> • Music • General hygiene • Waste disposal • Décor • Equipment • Privacy • Reception areas • General use/treatment areas • Safety aspects 		
Describe the different consultation techniques used to identify treatment objectives	<ul style="list-style-type: none"> • Positive body language • Positioning of the client (no barriers between themselves and client) • Good communication skills (asking open and/or closed questions where appropriate) • Verbal and non-verbal communication 		
Explain the importance of carrying out a detailed body analysis and relevant tests	<ul style="list-style-type: none"> • Identifying client's body type and needs • Thermal test • Tactile test • Contra-indications • Scope of treatment(s) • Aftercare advice • Home care advice 		
Describe how to select products, tools and equipment to suit client treatment needs, body types and conditions	<ul style="list-style-type: none"> • Couch or chair • Trolley • Stool • Towels • Blanket • Additional support if appropriate • Headband • Bedroll • Robe • Disposable slippers • Disinfecting fluid • Tissues • Cotton wool • Sponges • Gloves • Spatulas • Bowls 		

	<ul style="list-style-type: none"> • Mask brushes • Gauze • Sterilising solution • UV cabinet • Autoclave • Chemical immersion equipment • Waste disposal • Electrical equipment as follows: <ul style="list-style-type: none"> - Electro muscle stimulator EMS (Faradic) - Galvanic - Microcurrent - Vacuum suction - Infrared - Mechanical massage/vibrator treatments 		
Describe the different body types, conditions and characteristics	<ul style="list-style-type: none"> • Mesomorph • Ectomorph • Endomorph • Dowager's hump • Round shoulders • Winged scapula • Midriff bulge • Protruding abdomen • Hyper-extended knees • Fluid retention • Weight distribution • Poor muscle tone • Kyphosis • Lordosis • Scoliosis 		
Explain the contra-indications that prevent or restrict body electrotherapy treatments	<ul style="list-style-type: none"> - With medical, GP or specialist permission – In circumstances where written medical permission cannot be obtained the client must sign an informed consent stating that the treatment and its effects has been fully explained to them and confirm that they are willing to proceed without permission from their G.P. or specialist - Pregnancy - Cardiovascular conditions (thrombosis, phlebitis, hypertension, hypotension, heart conditions) - Haemophilia - Any condition already being treated by a GP or another practitioner - Medical oedema - Osteoporosis 		

	<ul style="list-style-type: none"> - Arthritis - Nervous/psychotic conditions - Epilepsy - Recent operations - Diabetes - Asthma - Any dysfunction of the nervous system (e.g. Multiple sclerosis, Parkinson's disease, Motor neurone disease) - Bell's palsy - Trapped/pinched nerve (e.g. sciatica) - Inflamed nerve - Cancer - Postural deformities - Spastic conditions - Kidney infections - Urinary infections - Whiplash - Slipped disc - Undiagnosed pain - When taking prescribed medication - Acute rheumatism - Medication causing thinning or inflammation of the skin (e.g. steroids, Accutane, retinols) • Contra-indications that restrict treatment <ul style="list-style-type: none"> - Fever - Contagious or infectious diseases - Under the influence of recreational drugs or alcohol - Diarrhoea and vomiting - Skin diseases - Undiagnosed lumps and bumps - Localised swelling - Inflammation - Varicose veins - Pregnancy (abdomen) - Cuts - Bruises - Abrasions - Scar tissue (2 years for major operation and 6 months for a small scar) - Sunburn - Hormonal implants - Abdomen (first few days of menstruation depending how the client feels) - Haematoma - Hernia 		
--	---	--	--

	<ul style="list-style-type: none"> - Recent fractures (minimum 3 months) - Cervical spondylitis - Gastric ulcers - After a heavy meal - Conditions affecting the neck - Any metal pins or plates - Loss of skin sensation (test with tactile test) - IUD (coil) - Anaphylaxis - Loose crepey skin - Muscle fatigue - Pacemaker - Body piercing 		
--	---	--	--

2. Be able to provide body treatments using electrotherapy			
Communicate and behave in a professional manner	<ul style="list-style-type: none"> • Checking consultations and contra-indications • Explaining the treatment to the client • Benefits, limitations and co-operation required • Helping the client onto the couch prior to and off the couch after the treatment • Positioning the client correctly • Sanitising client's hands/feet as appropriate • Sanitising own hands as appropriate throughout treatment • Protecting the client's modesty at all times • Ensuring that all parts of the client are covered except the area being treated • Ensuring that the client is comfortable • Using appropriate covered supports • Adapt the body electrotherapy treatments to suit the needs of the client • Ensuring client does not stand on floor with bare feet • Client care • Communication • Correct posture, hygiene and a professional approach to the client throughout treatment 	<ul style="list-style-type: none"> • OHP/Whiteboard • Lecture • Q&A • Handout • Homework • Test 	64
Follow health and safety working practices	<ul style="list-style-type: none"> • Fire Precautions Act • Health & Safety at Work Act • Health and Safety (First Aid) Regulations • The Management of Health & Safety at Work Regulations • The Workplace (Health, Safety & Welfare) Regulations • The Manual Handling Operations Regulations • The Personal Protective Equipment at Work Regulations • The Provision and Use of Work Equipment Regulations 		

	<ul style="list-style-type: none"> • The Control of Substances Hazardous to Health Regulations (COSHH) • The Electricity at Work Regulations • Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) • Disability Discrimination Act • Data Protection Act/GDPR • Adhere to all safety precautions and manufacturers' instructions 		
Position themselves and client correctly throughout the treatment	<ul style="list-style-type: none"> • Positioning of the client • Client comfort • Application of the treatments • Body therapist self-care 		
Use products, tools, equipment and techniques to suit clients treatment needs, body type and conditions	<ul style="list-style-type: none"> • Couch or chair • Trolley • Stool • Towels • Blanket • Additional support if appropriate • Headband • Bedroll • Robe • Disposable slippers • Disinfecting fluid • Tissues • Cotton wool • Sponges • Gloves • Spatulas • Bowls • Mask brushes • Gauze • Sterilising solution • UV cabinet • Autoclave • Chemical immersion equipment • Waste disposal • Electrical equipment as follows: <ul style="list-style-type: none"> - Electro muscle stimulator (EMS) (Faradic) - Galvanic - Microcurrent 		

	<ul style="list-style-type: none"> - Vacuum suction - Infrared - Mechanical massage/vibrator treatments 		
Complete the treatment to the satisfaction of the client	<ul style="list-style-type: none"> • Conclusion of treatment in appropriate manner to meet client's needs 		
Evaluate the results of the treatment	<ul style="list-style-type: none"> • Reviewing and recording treatment outcomes • Treatment recommendations • Home care advice 		
Provide suitable aftercare advice	<ul style="list-style-type: none"> • Recommendations for immediate aftercare • Suitable body care regime • Use of SPF • Lifestyle • Recommendation of further salon treatments 		
Explain how to communicate and behave in a professional manner	<ul style="list-style-type: none"> • Consultation • Treatment explanation • Client care • Hygiene • Good communication skills 		
Describe health and safety working practices	<ul style="list-style-type: none"> • Fire Precautions Act • Health & Safety at Work Act • Health and Safety (First Aid) Regulations • The Management of Health & Safety at Work Regulations • The Workplace (Health, Safety & Welfare) Regulations • The Manual Handling Operations Regulations • The Personal Protective Equipment at Work Regulations • The Provision and Use of Work Equipment Regulations • The Control of Substances Hazardous to Health Regulations (COSHH) • The Electricity at Work Regulations • Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) • Disability Discrimination Act • Data Protection Act/GDPR • Adhere to all safety precautions and manufacturers' instructions • Specific safety precautions for each machine as follows: <ul style="list-style-type: none"> - Electro muscle stimulator (EMS) (Faradism) - Galvanism - Microcurrent - Vacuum suction (lymphatic drainage) 		

	<ul style="list-style-type: none"> - Infrared - Mechanical massage/vibrator treatments 		
Explain the importance of positioning themselves and the client correctly throughout the treatment	<ul style="list-style-type: none"> • Ensuring the client is comfortable and correctly supported • Applying the treatments as appropriate to the client's needs • Therapist maintaining correct posture/stance throughout treatment 		
Describe different body types and conditions	<ul style="list-style-type: none"> • Mesomorph • Ectomorph • Endomorph • Dowager's hump • Round shoulders • Winged scapula • Midriff bulge • Protruding abdomen • Hyper-extended knees • Fluid retention • Weight distribution • Poor muscle tone • Kyphosis • Lordosis • Scoliosis 		
Explain the importance of using products, tools, equipment and techniques to suit client treatment needs, body type and conditions	<ul style="list-style-type: none"> • Couch or chair • Trolley • Stool • Towels • Blanket • Additional support if appropriate • Headband • Bedroll • Robe • Disposable slippers • Disinfecting fluid • Tissues • Cotton wool • Sponges • Gloves • Spatulas • Bowls 		

	<ul style="list-style-type: none"> • Mask brushes • Gauze • Sterilising solution • UV cabinet • Autoclave • Chemical immersion equipment • Waste disposal • Products and equipment applicable for the following: <ul style="list-style-type: none"> - Electro muscle stimulator EMS (Faradic) - Galvanic - Microcurrent - Vacuum suction - Infrared - Mechanical massage/vibrator treatments 		
Explain the effects and benefits of electrotherapy equipment and products on the skin and underlying structures	<ul style="list-style-type: none"> • Microcurrent • Vacuum suction • Galvanism • Infrared • Mechanical massage/vibrator treatments (G5) • Vacuum suction • Electro muscle stimulator (EMS) (Faradic) • Effects of the above electrotherapy treatments on the following: <ul style="list-style-type: none"> - Circulation - Lymphatic drainage - Skin - Muscular system - Ageing - Moisture levels 		
Explain the principles of electrical currents	<ul style="list-style-type: none"> • Protons • Neutrons • Electrons • Nucleus • Volts • Watts and amperes • Ohms, Ohm's law and their relevance • Insulator • Conductor • Transformer • Rectifier 		

	<ul style="list-style-type: none"> • Fuses • Direct • Alternating • Interferential • Modified direct current • Wiring of a plug • Types of equipment and current <ul style="list-style-type: none"> - Faradic – direct interrupted/surged current - High frequency – Alternating– indirect/direct - Galvanic – Direct – iontophoresis/desincrustation - Microcurrent – Modified direct current - Vacuum suction – AC - Infrared – AC 		
Describe how treatments can be adapted to suit client treatment needs, body types and conditions	<ul style="list-style-type: none"> • Restrictions • Client preferences and commitment • Product availability • Time scales • Costs • Microcurrent • Faradic • Galvanic • Vacuum suction • Infrared • Mechanical massage and vibratory treatments 		
State the contra-actions that may occur during and following treatments and how to respond	<ul style="list-style-type: none"> • Galvanism <ul style="list-style-type: none"> - Caustic burn - Galvanic burn - Allergic reaction - Skin irritation • Faradism <ul style="list-style-type: none"> - Muscle fatigue • Vacuum suction <ul style="list-style-type: none"> - Excessive erythema - Bruising • Infrared <ul style="list-style-type: none"> - Excessive erythema - Burning - Skin irritation • Mechanical massage and vibratory treatments <ul style="list-style-type: none"> - Excessive erythema 		

	<ul style="list-style-type: none"> - Skin irritation - Bruising - Thread veins 		
Explain the importance of completing the treatment to the satisfaction of the client	<ul style="list-style-type: none"> • Concluding the treatment in appropriate manner to meet client's needs • Concluding the electrical treatment in an appropriate and safe manner to meet the client's needs • Ongoing treatments 		
Explain the importance of completing treatment records	<ul style="list-style-type: none"> • Maintaining records • Aftercare • Home care • Product advice • Compliance with data protection 		
Describe the methods of evaluating the effectiveness of the treatment	<ul style="list-style-type: none"> • Maintaining records for accurate future treatment • Aftercare • Home care • Product advice • Compliance with current legislation • Concluding the treatment in the correct manner to meet client's requirements • The treatment should be performed for the required amount of time efficiently and professionally ensuring the working area remains clean and tidy throughout 		
Describe the aftercare advice that should be provided	<ul style="list-style-type: none"> • Based upon consultation, body analysis and relevant tests recommendations for ongoing or further treatments, home and aftercare advice • Healthy eating • Fluid/water intake • Exercise • Smoking habits • Hobbies • Interests • Rest • Relaxation • Stress levels • Sleep • General care and lifestyle advice and the beneficial effects thereof 		
Describe the structure, growth and repair of the skin	<ul style="list-style-type: none"> • Epidermis <ul style="list-style-type: none"> - Stratum corneum - Stratum lucidum - Stratum granulosum - Stratum spinosum/malphigian layer 		

	<ul style="list-style-type: none"> - Stratum germinativum/basal layer - Melanocytes • Dermis <ul style="list-style-type: none"> - Blood supply - Lymphatic supply - Hair follicle - Hair - Sebaceous gland - Sweat glands: Eccrine and apocrine - Sensory nerve endings - Dermal papilla - Collagen - Elastin - Histiocytes - Mast cells - Fibroblasts - Erector pili muscle and subcutaneous layer • Secretion • Heat regulation • Absorption • Protection • Elimination • Sensation • Vitamin D formation (7-dehydro-cholesterol) • Keratinisation • Melanin formation • Mitosis 		
Describe body types, conditions, diseases and disorders	<ul style="list-style-type: none"> • Mesomorph • Ectomorph • Endomorph • Kyphosis • Lordosis • Scoliosis • The skin <ul style="list-style-type: none"> - Infestations <ul style="list-style-type: none"> ▪ Scabies ▪ Pediculosis - Congenital <ul style="list-style-type: none"> ▪ Atopic eczema ▪ Atopic dermatitis ▪ Psoriasis 		

	<ul style="list-style-type: none"> - Bacterial <ul style="list-style-type: none"> ▪ Acne vulgaris ▪ Impetigo ▪ Acne rosacea ▪ Boils ▪ Folliculitis - Viral <ul style="list-style-type: none"> ▪ Warts ▪ Herpes simplex ▪ Herpes zoster - Fungal <ul style="list-style-type: none"> ▪ Tinea (ringworm) - Pigmentation disorders <ul style="list-style-type: none"> ▪ Vitiligo ▪ Albinism ▪ Chloasma ▪ Ephelides ▪ Lentigo ▪ Moles (papilloma) ▪ Naevae ▪ Port wine stain ▪ Leucoderma - General disorders <ul style="list-style-type: none"> ▪ UV damage ▪ Urticaria ▪ Allergic reaction ▪ Hyperkeratosis • Skeletal: <ul style="list-style-type: none"> - Arthritis <ul style="list-style-type: none"> ▪ Osteo and rheumatoid - Gout - Osteoporosis - Stress • Cardiovascular <ul style="list-style-type: none"> - Anaemia - Varicose veins - Haemophilia - Arteriosclerosis - Atherosclerosis - HIV/AIDS - High blood pressure (hypertension) - Low blood pressure (hypotension) - High cholesterol 		
--	---	--	--

	<ul style="list-style-type: none"> - Hepatitis A, B & C - Coronary thrombosis - Septicaemia - Haemorrhoids - Phlebitis - Thrombus - Leukaemia - Aneurism - Stress • Lymphatic <ul style="list-style-type: none"> - Oedema/water retention - Lymphoedema - Hodgkin's disease • Muscular <ul style="list-style-type: none"> - Fibrositis - Cramp - Muscle fatigue - Atony - Atrophy - Myositis - Rupture - Spasm - Spasticity - Sprain - Strain - Stress • Nervous <ul style="list-style-type: none"> - Neuritis - Bell's palsy - Neuralgia - Parkinson's disease - Stress - Myalgic encephalomyelitis (ME) - Cerebral palsy - Multiple sclerosis - Sciatica - Motor neurone disease • Digestive <ul style="list-style-type: none"> - Appendicitis - Cirrhosis of the liver - Jaundice - Heartburn - Irritable bowel syndrome (IBS) 		
--	--	--	--

	<ul style="list-style-type: none"> - Ulcer - Hernia - Stress - Anorexia nervosa - Bulimia - Constipation - Gall stones - Diabetes mellitus - Diabetes insipidus - Coeliac's disease • Urinary <ul style="list-style-type: none"> - Cystitis - Kidney stones - Nephritis • Endocrine <ul style="list-style-type: none"> - Addison's syndrome - Amenorrhoea - Cushing's syndrome - Pre-menstrual syndrome - Polycystic ovarian syndrome - Stress - Diabetes mellitus - Diabetes insipidus - Endometriosis 		
Describe the structure, function, position and action of the muscles of the body	<ul style="list-style-type: none"> • Voluntary • Involuntary • Cardiac • Ligament • Tendon • Fascia • Origin • Insertion • Action • Tone • Tension • Fatigue • Flexion • Extension • Abduction • Adduction • Rotation
