

Scheme of work

For each VTCT (ITEC) qualification, the lecturer/centre must complete a scheme of work for each unit indicating how the Lecturer is planning to cover the unit content throughout the course. Set out the planned sessions in terms of learning outcomes to be achieved. These should match those stated within the VTCT (ITEC) unit specification. Include all units of each course offered. Hours should meet the minimum guided learning hours listed within the unit specification.

Unit title: iUBT381 – Provide nail art

Total contact tuition hours proposed: 24

Lecturer(s) responsible:

Learning objectives	Lecture content	Suggested resources	Approx. hours
Introductory session	<ul style="list-style-type: none"> • College rules and regulations • College mission statement • VTCT (ITEC) rules and regulations • Health & safety • Timetable • Dates – holidays etc. • Syllabus • Recommended books • Uniform 	<ul style="list-style-type: none"> • Lecture • Q&A • Using all the documents listed to ensure the students understand the college expectations and their commitment to the course 	
1. Be able to prepare for nail art treatment			
Prepare themselves, client and work area for nail art treatment	<ul style="list-style-type: none"> • Preparation of working area • Equipment • Products • Work wear • Personal appearance and behaviour • Hygiene e.g. sterilising/sanitising tools and equipment • Procedures used to prepare client for treatment • Client care and modesty 	<ul style="list-style-type: none"> • OHP/Whiteboard • Lecture • Q&A • Homework • Test • An example of a consultation form can be 	10

Use suitable consultation techniques to identify treatment objectives	<ul style="list-style-type: none"> • Consulting in a suitable area • Positive body language • Positioning of the client • Good communication skills (asking open and/or closed questions where appropriate) • Professionalism • Contra-indications and contra-actions • Treatment plan • Products used • Consent • Confidentiality • Client's signature 	downloaded from www.itecworld.co.uk	
Carry out a nail and skin analysis	<ul style="list-style-type: none"> • Skin type and condition • Nail type and condition • Natural nail shape <ul style="list-style-type: none"> - Oval - Square - Spoon - Fan • Suitability or integrity of nail enhancement if present • Contra-indications 		
Provide clear recommendations to the client	<ul style="list-style-type: none"> • Taking into account the following: <ul style="list-style-type: none"> - The outcome of the skin and nail analysis - Client requirements and realistic expectations - Nail art design plan - Occupation - Lifestyle - Current regime - Recommendations for ongoing maintenance treatments and level of commitment required 		
Select products, tools and equipment to suit client treatment needs and nail conditions	<ul style="list-style-type: none"> • Couch or chair • Trolley or manicure table • Stool • Towels • Additional support if appropriate • Bedroll • Disposable slippers • Disinfecting fluid • Magnifying lamp • Tissues 		

	<ul style="list-style-type: none"> • Cotton wool • Lint free pads • Emery boards • Files • Buffers • Orange wood stick • Striping brush • Fine detail brush • Glitter brush • Marbling tool • Scissors • Sterilising solution • UV cabinet • Autoclave • Hot bead steriliser • Chemical immersion equipment • Waste disposal • Products <ul style="list-style-type: none"> - Oils - Cuticle oil - Natural nail cleanser - Nail enamel remover - Acetone - Nail preparation products - Base coat - Topcoat or sealant - Coloured polishes - Coloured acrylic paints (water-based) - Glitters - Transfers - Foils - Foil adhesive - Rhinestones - Flat stones • Nail art techniques <ul style="list-style-type: none"> - Coloured polishes - Rhinestones - Flatstones - Gems - Polish secures - Transfers
