## iUBT353 – Remove hair using waxing techniques

Once all aspects of the mandatory units have been completed, learners will be expected to complete an internal practical assessment. This will be undertaken by an internal assessor using the internal assessment forms. These must be handed to the external examiner on the day of the final external practical examination.

Practical examination sequence – approximately 45 minutes

- It is the responsibility of the college to ensure that learners supply sufficient clients with suitable hair growth in all areas
- The external examiner must be notified prior to the start of the examination if the learners have clients who do not have sufficient hair to wax. Learners may be withdrawn from this unit where the client has insufficient hair growth to permit full demonstration of the required techniques
- Learners must not share clients, however special consideration will apply in extenuating circumstances
- Cool/ warm wax – (½ leg) either the front of one leg up to and including the knee or the back of one leg. The back of the leg will be specified in cases where hair growth is lacking on the front as specified by the external examiner
- Hot wax – bikini or underarm, one side only, as specified by the external examiner
- Oral questions may be asked at any time during the examination
- Consultation forms must be filled in by each learner and made available for the external examiner to check. These should be reviewed and completed at the end of the treatment and will be taken away by the external examiner
- Learners will be expected to demonstrate excellent hygiene and client care throughout as well as competence in their relevant skills
- The external examiner may reduce the treatment timings, as the examination is a demonstration of the learner's professionalism and their accomplished technique
- Approximate time allocated for changeover of practical examination groups – 15 minutes

Learners must achieve a minimum of 3 marks for appearance and 3 marks for client care in order to pass the practical examination
