UIP3 - Infection Prevention (COVID-19) for Make-up Services

LO5 Understand potential hazards and risks and the workplace procedures necessary to prevent the spread of COVID-19 in the professional make-up working environment

The potential hazards and possible risks in relation to COVID-19

Hazards

- Anything that has the potential to cause harm, for example inadequately maintained toilet facilities

Risks

- A chance, high or low, that harm caused by the hazard may occur, for example, cross-infection from poor hygiene controls

Hazards and risks

For example:

- Inadequate or poor COVID-19 staff training
- Staff and client/model/performer levels
- Client/model/performer scheduling/re-scheduling
- Make-up studio/working environment
- Make-up teams
- Clinically vulnerable staff
- Clinically vulnerable clients/models/performers
- Client consultation
- Client/model/performer pre-approval

Hazards and risks

For example:

- Make-up studio/working environment testers
- Suitability of treatment/service and appropriate PPE
- Hand hygiene
- Working safely throughout the service
- Management of client/model/performer throughout the service – PPE etc.
- Ventilation
- Correct handling and storage of all products, tools and equipment

Hazards and risks

For example:

- Correct decontamination processes appropriate to products, tools, equipment and working areas
- Storage of clean and dirty tools and equipment
- Disposal of waste
- The handling of cash

Safe and hygienic working practices

- Creation of a COVID-19 safe checklist
- Display of risk assessment notification in accordance with COVID-19 secure guidance of the country therein
- Table of services available
- Prevent or limit walk-in clients
- Signage
- Separate entry and exit doors, door opening/closing, control of access
- Temperature checks in accordance with the local and national guidelines of the country therein
- Restrict the number of staff and clients/models/performers dependent on the size of the premises and social distancing guidelines of the country therein
- Adequate ventilation

Safe and hygienic working practices

- Indicate social distancing requirements
- Removal of waiting/reception area seating or allocate seating in accordance with social distancing guidelines of the country therein
- Request that clients do not arrive until allotted appointment time, models/performers to wait in appropriate, allocated areas
- Request that clients/models/performers attend the make-up session alone where possible (except in the case of a minor and/or disabled person requiring a support worker)
- Request that clients/models/performers bring minimal personal items into the make-up studio/working environment
- Introduce 'no touch' greeting policy

Safe and hygienic working practices

- Pre-service
- Client/model/performer arrival
- During service
- Post service
- Decontamination following service
- Safe working practices

Make-up service adaptations

- COVID-safe working practices
- All make-up services must be risk assessed
- Make-up services adaptations and requirements for PPE/RPE will be informed by risk assessment
