TQT is comprised of the following two elements:

- the number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and;
- an estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed – but, unlike Guided Learning, not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

The TQT for this qualification is detailed in Section 4 of this specification.

7. Grading

7.1 Overview

This qualification is graded Pass/Merit/Distinction. This is only applicable to the mandatory units.

There are two separate components in the grading model for this qualification, the graded external examinations and a graded external synoptic practical examination. Each component contributes 40% external examinations and 60% for the synoptic practical examination.

Learners must achieve a Pass grade or higher in the external theory examinations and synoptic practical examination. The grades achieved in each assessment correlate to points. These points will then be added together to determine the overall grade of the qualification, as shown below:

7.2 Grade boundary review

Grade boundaries for units and the overall calculation for the qualification grade are open to annual review. Following this review, these boundaries and overall calculations can be adjusted by VTCT. This review and possible change within a qualification are to ensure the standard of the qualification grade is upheld throughout the qualification's lifecycle.

8. External examiner

8.1 External examiner visits

This qualification is externally examined by the awarding organisation. Centres delivering this qualification will have a quality assurance visit each time an examiner visits the centre.

On a centre visit an examiner:

- examines all learners entered for the external practical examination
- samples learners' service portfolios
- verifies that appropriate staff and sufficient resources are in place and that the centre is continuing to meet the criteria specified in the centre contract
- checks that the centre's policies and procedures continue to meet the awarding organisation's requirements
