

**ITEC**

**VTCT**

## **UIP6** - Infection Prevention (COVID-19) for Beauty Retail Services

LO5 Understand potential hazards and risks and the workplace procedures necessary to prevent the spread of COVID-19 in the beauty retail environment

# The potential hazards and possible risks in relation to COVID-19

## Hazards

- Anything that has the potential to cause harm, for example inadequately maintained toilet facilities

## Risks

- A chance, high or low, that harm caused by the hazard may occur, for example, cross-infection from poor hygiene controls

# Hazards and risks

## For example:

- Inadequate or poor COVID-19 staff training
- Product testers
- Hand hygiene
- Working safely throughout the retail service
- Ventilation
- PPE as appropriate to the retail service, organisational requirements and guidance of the country therein

# Hazards and risks

## For example:

- Correct handling and storage of all products, tools and equipment
- Correct decontamination processes appropriate to products, tools, equipment and retail counter/display/working areas
- Storage of clean and dirty tools and equipment
- Disposal of waste
- Handling of cash

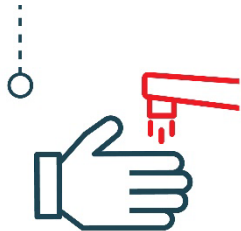

# Safe and hygienic working practices

## For example:

- Establish internal policies and procedures to prevent and control the spread of infection
- Consider 'click and collect' or online ordering system
- Maintain adequate ventilation

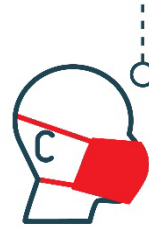

# Safe and hygienic working practices

**WASH HANDS**

**USE SOAP**

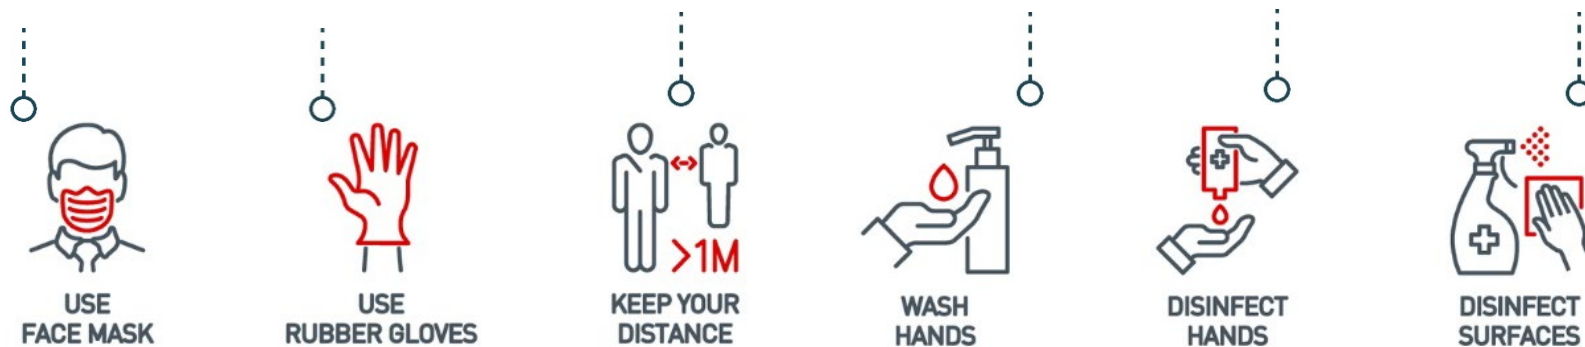

**WEAR MASK**

**DISINFECTION**

- As appropriate, in accordance with organisational requirements and guidance of the country therein
- Pre-sales
- Customer entry
- During beauty retail service
- Post beauty retail service
- Decontamination of service area(s)
- Safe working practices

# Possible service adaptations/ mitigations

- All beauty retail services must be risk assessed
- Beauty retail service adaptations and requirements for PPE will be informed by risk assessment
