## UBT468 – Enhance appearance using microblading techniques

Case Study/Internal Practical Assessment Criteria for Enhance appearance using microblading techniques			
Learner name:			
Assessor/Tutor name:			
Client reference:			
I confirm that the learner has:	P	R	
Prepared client, area and self for treatment including the use of appropriate PPE, in line with health and safety protocols and legislation, ensuring that all resources are ergonomically placed, and the treatment area is well lit and ventilated.			
Confirmed all consultation details, skin/eyebrow assessments and relevant tests had been performed, checked results and contra-indications confirming the client is suitable for treatment.			
Discussed and confirmed the management of pain relief options and topical anaesthetic/numbing for the area if appropriate and required and recorded all details.			
Performed skin sensitivity tests and visual examination of the condition and health of the client's skin to establish the skin/brow characteristics and condition and confirmed the client's suitability for treatment.			
Used a range of communication skills, discussed, and confirmed realistic and achievable treatment objectives and the likely healing process including associated time frames.			
Discussed possible contra-actions and expected treatment reactions and checked client understanding regarding the importance of adherence to aftercare protocols and future treatment intervals.			
Discussed, selected, agreed and prepared appropriate pigments, recorded all colour(s), batch numbers, expiry dates, ratios and dilutants in line with manufacturer protocols.			
Provided information regarding the 'cooling off period' and obtained the client's signed informed consent to proceed with the treatment.			
Gained consent for, and taken pre-treatment visual media records, discussed, agreed, and confirmed the desired treatment outcomes with the client.			
Drew and agreed a template (as applicable) of the desired eyebrow shape.			
Selected the appropriate tools/blades, sizes and configurations for the desired effect and recorded all batch numbers.			
Positioned client and self for the treatment ensuring full support and access to the treatment area and minimised risk of strain or injury.			

Loaded microblading tool/blade correctly ensuring it is secured in the handpiece.		
Performed a safe, effective microblading treatment demonstrating adequate support to all areas, manipulating the skin appropriately and adapting the angle as required to achieve the desired outcome.		
Monitored the treatment area and checked client wellbeing and effectiveness of implantation techniques and pigment retention throughout the treatment, giving reassurance and taking breaks as necessary.		
Worked to a commercially acceptable time and finish in line with treatment objectives, removed excess pigment, concluded the treatment appropriately and applied post treatment products according to manufacturer guidance.		
Demonstrated safe disposal of sharps and all treatment waste in line with organisational requirements and legislation.		
Evaluated treatment outcomes, took post treatment visual media records, and gained client feedback including signed approval accepting the results of the treatment.		
Given verbal and written aftercare recommendations including advice on further treatments and maintenance required with appropriate intervals and gained signature from the client agreeing to comply with all aftercare/post treatment advice.		
Recorded all treatment details in line with organisational requirements and legislation.
