## UBT473 – Enhance appearance using Dermaplaning techniques

Case Study/Internal Practical Assessment Criteria for Enhance appearance using Dermaplaning techniques		
Learner name:		
Assessor/Tutor name:		
Client reference:		
I confirm that the learner has:	P	R
Prepared client, area and self for treatment including the use of appropriate PPE, in line with health and safety protocols and legislation, ensuring that all resources are ergonomically placed, and the treatment area is well lit and ventilated.		
Confirmed all consultation details, skin assessments and relevant tests had been performed, checked results and contra-indications confirming the client is suitable for treatment.		
Discussed the treatment protocol and sensation, confirmed, and agreed the areas to be treated with the client.		
Performed skin sensitivity tests and visual examination of the condition and health of the client's skin and confirmed the client's suitability for treatment.		
Used a range of communication skills, discussed and confirmed realistic and achievable treatment objectives and the likely healing process including associated time frames.		
Discussed possible contra-actions and expected treatment reactions and checked client understanding regarding the importance of adherence to aftercare protocols and future treatment intervals.		
Provided information regarding the 'cooling off period' and obtained the client's signed informed consent to proceed with the treatment.		
Gained consent for, and taken pre-treatment visual media records, discussed, agreed and confirmed the desired treatment outcomes with the client.		
Positioned client and self for the treatment ensuring full support and access to the treatment area and minimised risk of strain or injury.		
Selected the appropriate blade size, checked the package was intact and checked and recorded the expiry date.		
Checked the blade was secured to the handle, loaded in an aseptic manner, and positioned correctly.		
Performed a safe, effective dermaplaning treatment using and adapting angle, pressure, and techniques as appropriate to achieve the desired outcome.		

Monitored the treatment area and checked client wellbeing throughout the treatment, giving reassurance and taking breaks as necessary.		
Worked to a commercially acceptable time and finish in line with treatment objectives, concluded the treatment appropriately and applied post treatment products according to manufacturer guidance.		
Demonstrated safe disposal of sharps and all treatment waste in line with organisational requirements and legislation.		
Evaluated treatment outcomes, took post treatment visual media records and gained client feedback including signed approval accepting the results of the treatment.		
Given verbal and written aftercare recommendations including advice on further treatments and maintenance required with appropriate intervals and gained signature from the client agreeing to comply with all aftercare/post treatment advice.		
Recorded all treatment details in line with organisational requirements and legislation.
